

Enneagram CURRICULUM

“Enneagram Master, EWA”

Enneagram World Association (EWA)

**“Enneagram Master, EWA”: Minimum 8 training days in at least 48 hours
(after the Entrance Qualification: “Enneagram Practitioner, EWA”)**

The Master is focused on the daily and professional use of Enneagram. The beauty of Enneagram is its application in every art form, sport, media.

*** Enneagram & Business**

Enneagram is an handy tool when it comes to business, understanding the type of people we have to work with and the types of client to understand what they will be interested and how to guide them using terms that corresponds to them.

*** Enneagram & Leadership**

Some types have a natural tendency to lead such as the 8 and the 3 some other have the ability to lead creative projects such as the 1,2, 4 and 7. This will help them how to use their Enneagram in a way that corresponds to them using their wings and growth type.

*** Enneagram & Coaching**

Understanding how each types work as individuals and in a group. Using their Enneatype to make them achieve using the right patterns. For example it would be preferable to prioritise multiple short tasks.

*** Enneagram & Education**

Enneagram in education would be an essential tool for children in need of help to give them tailor made help to make them achieve and learn in amore adequate situation.

*** Enneagram & Health**

Help the right Enneatype to give them the right solution to better ones mental and physical health. Something more suited and tailor-made to their nature and personality will undoubtedly work even better for them.

*** Enneagram & Parenting**

Knowing how your child behaves is extremely important to understand his emotional prosses and how to talk to him adequately. Helping to facilitate the communication. It also helps understanding the different possible relations between different siblings.

*** Enneagram & Relationships**

All types are compatible and bring something unique between 279 combinations between two subtypes (and more if taken the wings into account). Helping the communication and understand how the partner thinks, feel and behave. It is an essential tool to understand in depth the different reasons and solutions for each case.
